FOREST FIRE WARDEN

PREVENT FOREST FIRES—IT PAYS

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners, and town and state economies. Everyone loses because of them.

Analysis of fire causes reveals the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable!

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up the fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on his guard. He should

1. Be careful with fire or when smoking in or near woodlands.
2. Cooperate with the local forest fire warden and his deputies by
 - a. Abiding cheerfully with whatever restrictions it may be necessary to impose. They are intended only to be helpful.
 - b. Securing permits to burn debris when the ground is not covered with snow.
 - c. Seeing that others comply with the requirements.
 - d. Promptly coming to the warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting—that PAYS!

FRED E. TEAGUE,
Forest Fire Warden.

ANNUAL REPORT OF THE OLIVE G. PETTIS FREE LIBRARY

We regret sincerely that Mrs. Marjorie Oliphant, who for more than ten years was a most conscientious chairman, resigned from the Library Board in October, 1945. This was made necessary due to her moving to New London where her time is fully occupied. She was never too busy or too tired to think of something for the good of the Library, and we certainly hope that when she returns she will again be on the Board.

In December, 1944, it was decided that the school children from the fourth grade up should prepare book reports to be

judged by Mrs. Ethel Gregg, Mrs. Elizabeth Nelson, and Mrs. Marion Grant. At graduation in June Mrs. Oliphant as Chairman of the Library Board, presented the following books as prizes: "Ocean Born Mary" to Carrie Morse, the winner of highest honors at the Corner School; "Unleash the Dogs for War" to Cornelius Harold, winner of second place at the Corner School; and "Return of the Silver Chief" to John Scranton, for the best report in the Village School. Only two prizes had been planned, but due to the excellence of the reports three were found to be necessary.

The only magazine to which we now have a subscription is "Good Housekeeping." Miss Grace Dow has contributed "American" Magazines to the Library also.

The Bookmobile has been around as usual. The books which the school children have been taking out have been especially interesting.

Plans are under way for improving the interior of the Library.

We regret that there could be no formal observance of Children's Book Week last year, but we hope that in the coming year some recognition of it may be made.

SUPERINTENDENT'S REPORT

To the School Board of Goshen:

I herewith submit my annual report for the eighth year as your Superintendent of Schools.

The Corner School opened last fall with twenty-three pupils under Mrs. Arthur Nelson. This was an increase of two pupils from the year before. The room is orderly and the pupils are making good progress. Mrs. Scranton accepted a position at Newport last fall, and Mrs. Maude Brown has been hired to teach the four lower grades at the Mill Village School. School opened with twenty-eight pupils this fall. A year before, it began with thirty-six and soon increased to forty. We were very fortunate to obtain an able, experienced teacher who lived so near the school house.

There is still a desire to have a union school building and an able committee has been working on the proposition. Prices are so high and there is such a uncertainty as to what changes will be forced upon us by the scarcity of teachers that it may be some time before any plan can be perfected.

As long as we can locate local teachers, we may avoid difficulties, but if we have to go into the open market, it is going to be hard to find good teachers. Many of the larger towns have teachers' salary schedules of maximums more than twice those paid by many of the rural districts. It is hard to find good boarding places in most rural districts and the few teachers graduating from normal schools prefer to teach in the larger buildings. Many of the small towns may be forced in a

few years to transport all children to larger towns because of the scarcity of teachers who are willing to accept rural positions.

Goshen has obtained good wood and made good repairs in these times of high wages and great scarcity of labor. I believe the citizens of Goshen would be interested in studying a table showing the comparative costs in your schools now and those of a few years ago.
